HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.

He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO JUNE 9.

Washington News.

WASHINGTON, June 7.—In the Senate to-day, a bill authorizing the Secretary of the Interior to change boundaries and districts without increasing their number, passed.

The President has appointed James H. Delford (colored) of Indiana, Associate Justice of the Supreme Court.

The Reconstruction Committee have attached to the Georgia bill a proviso that nothing therein shall interfere with the election in Georgia this fall, as provided by the State constitution. The Committee resolved to postpone action relative to Tennessee to the next session.

The Mixed Commission for the settlement of Mexican claims resumed its session Monday. The claims number over 2,000, and may occupy five years in adjustment.

The Senate Foreign Committee have agreed to report a bill rescinding the slave trade treaty made in 1862 with England.

A great council between the Secretary of the Interior, Commissioner Parker and the Indian delegations was held to-day.

The Senate has confirmed Gilman Marsten as Governor of Idaho.

The majority for the reform candidate for Mayor is 3,200; total vote nearly 17,000. The Republicans elected two Aldermen and five Councilmen. Two of the latter are colored. Emery (Rep.) is elected.

CHICAGO, June 7.—The *Tribune's* Washington special says there is great dissatisfaction on the part of several members of the Reconstruction Committee with the course pursued by Butler in failing to report the Georgia bill as he had been instructed to do. He has made a show of offering to bring it up on one or two occasions, but not at a time when he had a right to do so, and objection carried it over. It is the understanding among some of his associates that he is delaying it with the deliberate purpose of preventing action on the bill at this session. Assistant Postmaster General Fields has, it is understood, resigned his position.

The *Times'* special says the Republican members of the House Judiciary Committee have for some time agreed to report a bill taking the power of naturalization out of the hands of the State Courts and placing it in control of the Federal Courts. It is the intention to report and pass this measure at the last of this week. The democratic members are prepared formally to assail it. It is more of a partisan scheme than even the enforcement bill. The New York city members regard it as a virtual attempt to wrest New York city from democratic control.

WASHINGTON, June 8.—The Senate in executive session had a long debate on the San Domingo resolution offered yesterday by Schurz (not Sumner) resulting in tabling it. The debate developed a more favorable disposition toward the treaty than heretofore.

The minority report on the Cuban question is signed by Orth, Judd, Willard and Ambler. The *Times'* special says the majority report is quite different from that published in the New York papers. Two resolutions will be reported on in favor of impartial neutrality on the part of the Government between Spain and the Cubans, and giving the latter the same privileges that are now accorded to the former, to arm gunboats, etc. Another will call on the contending parties to wage war on a basis recognized by civilized nations, and not execute its prisoners.

CHICAGO, June 8.—The *Tribune's* special says that five bills for land grant subsidies to canals in California, ten sections to the mile, were reported to-day.

Mr. Thayer reported a bill to give all coal lands on the line of the U. P. R. R. to that company at a minimum Government price.

The debate in the Senate in the evening session upon nomination of Pitts for successor to Gov. Ashley, of Montana, indicated his confirmation whenever final action is reached.

Congressional.

WASHINGTON, June 9.—Fitch, as a question of privilege, pronounced as an unmitigated falsehood a newspaper statement that he was implicated to the professed disclosure as to the corrupt use of Cuban bonds, and denounced the author as a wicked and cowardly liar. Butler, chairman of the sub-committee, stated that there was no evidence whatever to implicate Fitch in any improper transactions relative to Cuba or anything else.

Garfield's currency bill was taken up and several amendments offered. Finally, after the previous question had been moved, the House, by a vote of 79 to 75, adjourned, thus sending the bill to the bottom of the bills on the Speaker's table, or virtually defeating it.

WASHINGTON, June 8.—There was a long debate in the Senate on the memorial of Hatch, setting forth that his rights as an American citizen was violated by his unjustifiable arrest, imprisonment and sentence of death by the Dominican authorities, and that his release was prevented by the interposition of Gen. Babcock, a United States officer acting as a Commissioner for the annexation of San Domingo. The result was the appointment of a special committee of seven to investigate the matter and circumstances therewith connected.

In the House, Sargent introduced a bill to amend the act of 1866 for the survey and sale of public lands, providing that money deposited for surveys shall be credited as part payment therefor.

Indian Matters.

WASHINGTON, June 8.—The Senate passed the Indian bill with an amendment providing for the removal of the Osteges to the Indian Territory and for payment of balances due the Pottawatamie Indians. Spotted Tail and other delegates of the Sioux tribe took leave of the President to-day and go home to-morrow. Red Cloud and delegation remain a week or ten days. They have a final interview with the President to-morrow and another with Secretary Cox and Commissioner Parker in a few days.

The Minnesota delegation fear that the course of Canada toward Reill will involve the whole Northwestern Territory in war. Manitoba more than concedes Reill's demand, except the important omission of amnesty.

News from Fort Garry shows that Reill will resist the Canadian troops with 3,000 men. Every day's delay makes the situation more critical and renders more necessary the interposition of our Government for the security of our frontier. Senator Ramsey's resolution calling for such mediation will soon be the subject of a report from the Foreign Relations Committee.

New York News.

NEW YORK, June 8.—A public meeting was held last evening for the purpose of establishing a University for women.

The *Sun* has a letter from a correspondent at Brownsville, Texas, whom it says is reliable, giving the features of a project for filibustering in Yucatan and those Mexican States which lie between the Sierra Nevada mountains and the Gulf. The leaders are former officers of the United States army and late Confederacy, with General Rosecrans in command; headquarters, New York city; principal subordinate depots, Chicago, St. Louis, Philadelphia, Houston, Texas, New Orleans and Shreveport, Louisiana. Gen. J. Bankhead Magruder is commander of the New Orleans portion of the expedition. The grand passage over the Rio Grande and into Mexico will take place two months hence.

NEW YORK, June 8.—The grand procession of Free Masons this morning was in every way a success. More than 40,000 Masons participated.

NEW YORK, June 8.—The Mayor is about to recommend the removal of telegraph poles in the city, and laying underground cables instead.

NEW YORK, June 8.—The cornerstone of the new Masonic Temple was laid to-day with imposing ceremonies. There are said to be 200,000 strangers, Masons and friends, in this city. The firm of C. & A. Zinn, dealers in leaf tobacco, have collapsed, and the members disappeared, having passed forged checks amounting to $150,000, and swindled tobacco merchants out of $20,000.

CHICAGO, June 8.—E. W. Mitchell, one of the largest grain speculators in the city, failed to-day. Liabilities stated at from $60,000 to $100,000. The rise in wheat, of which he was nearly 50,000 bushels short, is the cause.

Canadian Affairs.

TORONTO, June 7.—It is said that 100 Chicago Fenians threaten a raid on the camp at Sault St. Marie. Preparations have been made to meet it. It is believed they have decided to go to Duluth. Intelligence has been received from Fort Garry that a large meeting of French settlers has been held at White Horse Plains, when resistance to the Red River expedition was unanimously favored. It is believed that a proclamation of independence will be issued. Two companies of U. S. infantry have arrived at St. Joseph.

Railroad Accident.

RUTLAND, Vt., June 8.—T. R. Abbott, Jas A. Hardy, and M. M. Crocker were killed and fifteen or sixteen injured by an accident near the summit of the Rutland and Burlington railroad last night. One train ran into a culvert, and a relief train sent to its assistance met with a similar accident.

Ohio Republican Convention.

COLUMBUS, June 7.—The Republican State Executive Committee has issued a call for a State Convention on the 10th of August, to be composed of 473 delegates.

The Massacre of Jews.

NEW YORK, June 7.—A private dispatch from M. Cremieux, President of the Jewish Alliance in Paris, says of the reported massacre in Roumania that the Jews were expelled, plundered and horribly maltreated, with a number wounded and some probably killed. This is the first authentic intelligence received of these outrages.

Miscellaneous.

CHICAGO, June 8.—Howard Livingston, according to the New York papers, a noted bigamist, and who was reported murdered and thrown into the river at Oswego, N. Y., recently by his brother, arrived in this city yesterday from San Francisco. He emphatically denies being dead.

The annual convention of the American Institute of Homœpathy met to-day; good attendance from all parts of the United States.

A terrible tragedy occurred in Scott county, Minnesota, on Monday afternoon. A farmer named Macey came home drunk, seized a knife and murdered his little daughter and started to slaughter his wife, when a young man took down a gun and fired, killing Macey instantly.

CLEVELAND, June 8.—The National Photographic Association commenced their annual meeting this afternoon.

CINCINNATI, June 8.—The International Typographic Union adopted a resolution discountenancing the plans of some subordinate Unions in giving their printing to the lowest bidder. The Union went into secret session and remained so until 1 o'clock. The remainder was open session. It transacted no business of importance, and adjourned till to-morrow.

PHILADELPHIA, June 8.—A young man named W. Stratton shot dead a girl named Amelia McLaughlin and then shot himself.

PITTSBURG, June 8.—During a severe thunderstorm this afternoon, Wm. Harte, driving in the street, was struck by lightning and instantly killed.

RACINE, Wis., June 8.—The preliminary examination of Albion Martin for the murder of Doucet West in Raymond a short time ago, resulted in a committal. A mob is feared and excitement prevailed. No demonstration was made.

WILLIAMSPORT, Pa., June 8.—The Commanderies of the Knight Templars, it is reported, will attend the grand conclave on the 18th of June here.

HUDSON, N. Y., June 8.—The Montreal express train on the Harlem extension railroad met with an accident this morning at Clarendon bridge. The engine and three cars ran into the river. The fireman is missing; supposed to have been killed. The engineer's leg was broken and he was otherwise seriously injured. The baggage master was slightly injured. No other casualties.

The storm east of Cheyenne prevents further working of the wires. No more report to night. Reporter.

BY THE CABLES.

PARIS, June 8.—M. Prevost Paradol has been appointed Minister from France to the United States.

ROME, June 7.—The *Augsburg Gazette* says the American delegates to the Ecumenical Council show a growing disinclination to the infallibility dogma, and are disgusted with the sophistry and sycophancy of its advocates.

BERLIN, June 8.—The French Minister presented the Minister of Foreign Affairs with a note from his government approving the Russian policy on the Ecumenical Council Papal position.

LONDON, June 8.—Wolff's continental telegraph company of Berlin, with sub-agencies in the principal cities of Europe, know nothing of any recent disturbances in Roumania. The manager of that company declares the telegram of Adolph Cremieux an exaggeration and says all the reports touching the slaughter or banishment of Roumania Jews are baseless.

There were one or two exciting passages between the supporters and opponents of the proposed dogma, but the minority are now silent and passive. BY STATE TELEGRAPH.

McGinnis was accompanied by another man, and seeing that the ford was dangerous, told his fellow traveller to wait till he crossed. When about the middle of the crossing, McGinnis and his horse disappeared and have not been seen since.

The weather here is exceedingly warm.

Political excitement has entirely subsided.

Mr. Seward Again.

[From the New York Herald.]

The distinguished Sage of Auburn on Monday made his first speech since his return from his Arctic and tropical tour that may be construed in any way to reflect the views he now entertains on the possibilities of the nation he was so long and so ably engaged in engineering through the greatest crisis. He especially dwelt upon the mission of the United States to harmonize all the civilization on this Continent and to advance steadily to higher notions, carrying our neighbors with us, of the social and political rights of man. It may be a feather in the cap of woman suffrage advocates to know that this speech was delivered on the occasion of the visit of a ladies' college; but owing to the barbarous and mediæval notions that prevail in our provinces, these same ladies were all turned out of the dining hall when the cloth was removed and, therefore, before the speech was made. A number of male visitors, by reason of being physically better fitted to drink wine and smoke, alone composed the audience to whom he addressed his words.

Mr. Seward has always had great, broad ideas of the future of the nation, and we are glad to see that his sixty-ninth birthday finds him fully as broad and grand in his ideas as ever. He says that the Continent is becoming every day more American; that the practices and opinions of the people of the United States are becoming the common practices and opinions of the other States, and that the Christian religion and the influence of the republican government are destined ere long to blend all the governments of the American Continent into one. Mr. Seward is the very best authority from whom these sentiments could emanate. He demonstrated years ago his trust in our manifest destiny, and much later has helped along the desirable consummation by the purchase of Alaska and the treaty for the purchase of St. Thomas. It is pleasant to note that the present administration shares in the grand old statesman's ideas of a united continent.

FORMER DEMOCRATIC PLOTS.—A Washington correspondent of the Chicago *Tribune* lately dined with several played-out copperhead politicians, and they told many secrets of the party and the rebellion—this among the rest:

> We had all got up a project to count out both Fremont and Lincoln when the electoral vote was taken, and defeated, in both the years 1856 and 1860, and particularly in the case of Lincoln's election. Then Breckinridge was to have presided at the count of the vote, and decided with the concurrence of the Democratic members and senators, that all the States which had passed personal liberty bills had broken their constitutional obligations, and were not to be numbered among States qualified to vote for President. With this decision from the Vice President of the United States, we were to have hoisted the flag of the Union, and made arrangements among the leading foreign ministers in Washington, that they were to give in their adherence to the de facto government. I forgot to say that a part of the programme was to abduct "Old Buck," and take him to the Virginia Springs in the spring of the year for the benefit of his health. Then Breckinridge would have been President, with the army and navy in his hands, and it would have bothered weak-kneed people all over the country to have answered the question, "On which side, Beozonian?" I do not believe that one of the foreign ministers of the great powers would have backed out unless it might have been Russia's. But there was no sense in the South. From Breckinridge down they were all a set of fools, with not enough political wisdom to carry one ward of New York city. Lincoln became President, and got the old flag.

A NOVEL SUIT.—The Pittsburg *Commercial* of May 21st says:

> A rather singular case was brought before Justice McAdams, of the Fourteenth Ward, on Thursday, it being a case of false pretense, in which a certain fashionable tailor of this city figured as defendant, and an equally fashionable young man as prosecutor. The facts of the case are about as follows: The young man a few weeks since determined to procure a new pair of pants, and called on the tailor, stating that he was desirous of obtaining a pair, and wanted them made in the height of fashion, but that he was afflicted with a huge boil on one of his legs, and wanted the new articles cut in such a manner as not to interfere with his personal comfort, or destroy the otherwise symmetrical appearance of his limbs. The tailor undertook the job of making a "fit," and in a few days the pants were furnished, with allowance made for the boil. The young man took the pants, but in a few days appeared before the tailor again, and said the efforts of the latter were a failure, but as regarded personal comfort and artistic beauty. The tailor made some further alterations, and the young man was satisfied for a few days, but returned again, and insisted on having a new pair made, and announced himself as ready to pay all damages, but he wanted a perfect "fit." The tailor told him to take those infernal ill-shaped limbs of his out of the store, and trouble him no longer. The young man left, and the next thing the tailor knew he was before the police magistrate, and required to give $300 bail for Court, to answer a charge of false pretense. False pretense cases in this city are sometimes strange cases.

It gives an idea of the composite population of some of the States of the West to note that the late adjourned sovereign convention of Illinois directed to the constitution framed by it and the address (to accompany it) to the people to be printed in four different languages—30,000 copies to be in English, 15,000 in German, 5,000 in Scandinavian, and 5,000 in French. The reader will perceive from this estimate of the population that the descendants of that great northern stock which originated constitutional liberty make up ten-elevenths of the citizens of Illinois. The reflection is commended to such as believe that the vast foreign admixture in the States makes the old Saxon ideas of liberty less appreciated, and presages a change from republican to imperial forms—from the free polity of the ancient Norse to the glittering but slavish solidarity of Rome.

FRIDAY MORNING JUNE 10 1870

Vigorous and Fearless

It will be remembered that at the beginning of the campaign the Democratic organ of this city came out boldly for repudiation Even in advance of the Albany Convention it declared for compulsory disgorgement The eighth resolution was framed and adopted and the repudiation organ for a week or ten days devoted all its space to elaborating the doctrine It was in ecstacies over it It proposed to make the campaign on that "great vital issue" But the more sensible and conservative portion of the party became alarmed at the doctrine The more sagacious of the leaders saw that to advocate it in this way would ruin the party and inevitably cause a Republican triumph Hence the Albany *Democrat* vigorously attacked the repudiation organ and silenced it During the last eight weeks of the canvass the organ had not one word to say about the eighth resolution It could not be provoked into any further discussion or exposition of it All the Republican papers of the State tried for weeks to get it to re-affirm the repudiation sentiments it had proclaimed when the contest opened. But there was no response It was as silent on the "vital eighth resolution" as if that resolution had had no more to do with the contest than Kepler's law or the binomial theorem In fact it became its study to keep that resolution in the background and to make the fight on other questions The people of Oregon who have watched the course of the newspapers in the contest that has just ended know that these are facts But what does the repudiation organ do now? After the campaign is over and there is no danger to be apprehended from advocating the repudiation resolution it hastens to re-affirm it. Take the following from its issue of yesterday

> The famous eighth resolution is what won the fight for the Democracy Equitable adjustment was advanced and urged by the *Herald* a long time before the Convention, and Republican papers and renegade Democrats charged that the adoption of the doctrine was due to its efforts in that direction When the platform was before the people, the *Herald*'s interpretation of the Eighth Resolution was the one adopted by the Bed Rock Democracy

Could brazen effrontery go further than this? The people know that the *Herald* was forced to abandon its "interpretation" of the eighth resolution They know that the campaign was diverted from the direction in which it was started, and that at last the eighth resolution cut no figure at all in it They know that the Democratic party has not won the fight on that resolution but by cutting loose from it Nothing could have induced the *Herald* to reaffirm a month before the election its boasted "interpretation" of the resolution Here is more of the same clumsy duplicity as that contained in the above extract

> The proprietors were resolved to spare no pains or expense to aid in placing Oregon in a position favoring equitable adjustment of the bonded debt which threatens to engulf the liberties of the people. They are pleased to believe that their exertions have not failed to produce results favorable to the good cause. They are also pleased to learn by numerous letters from the constituents of the *Herald* that the course of the paper and its vigorous and fearless action have given entire satisfaction.

The "vigorous and fearless action" of the *Herald* in this matter was exemplified by its cowardice in permitting itself to be "shut up" on "equitable adjustment" two months before the election, and not daring to pipe again on the subject till the election was over And now when the fight is over it rushes out of its place of concealment, calls out for "a hundred cheers for the eighth resolution," and declares that "liberty can now be only saved by the equitable adjustment of the public debt, according to the Albany platform, as interpreted by the *Herald*. If the fight was for "liberty" on the eighth resolution what was the meaning of all the clack of the *Herald* on railroads and the like for two months before the election, and never a word about the eighth resolution?

"Vigorous and fearless," indeed! Such "vigor" and "fearlessness" and precisely of the stamp that characterized the plucky Bob Acres and the valorous Captain Bobadil The repudiation organ has shown itself to be cowardly beyond all example After having been browbeaten into silence on the "eighth resolution" in the early part of the canvass, and never mentioning it from that time up to the election, nothing could be more unseemly for it than to parade its "interpretation" again But it does so, and thus again reminds everybody of the cowardice it exhibited during the heat of the contest Had the *Herald* and the Democratic orators adhered during the campaign to the "interpretation" of the eighth resolution which they announced at the beginning of the canvass, their party would have been beaten out of sight As it is they have won, but won by a mere scratch; They won not on the eighth resolution, but won by abandoning it Had the *Herald* continued to lead the fight on its "interpretation," its party would now be mourning over a crushing defeat.

The Legislature

The Senate consists of 22 members Republicans have the Senator from Washington county, one in Multnomah, one in Clackamas; one in Yamhill, one in Benton, two in Marion and two in Douglas, Coos and Curry—9. Democrats have one Senator in Multnomah (holding over by the fraud of two years ago), two in Linn two in Lane, one in Josephine, one in Jackson one in Polk, one in Wasco, and one in each of the counties of Umatilla Union and Baker—12 Grant, county one Senator yet to hear from is claimed by both parties

The House consists of 47 members Republicans have the Representative from Clatsop, four in Multnomah two in Washington three in Clackamas two in Yamhill five in Marion and two in Benton—19 Democrats have the Representative in Josephine three in Jackson, three in Lane five in Linn three (reported) in Douglas three in Polk two in Umatilla, two in Union, and one in Baker—23 Grant county two Representatives, Wasco two, and Coos and Curry one five in all, yet undecided

If Republicans carry Grant and get the member in Coos and Curry as they expect to do, they will have ten Senators and twenty two Representatives—thirty two on joint ballot, which would give the Democrats a majority of seven counting the two in Wasco on their side But there is some prospect of getting a Republican member in Wasco Until further information is received however, it will be impossible to state with any accuracy how large or how small the Democratic majority on joint ballot will be

The author of the "Grasshopper Jim" articles no longer prints his name in the *Herald* as editor of that paper He has retired, and left the editorial chair to Mr S C Simpson All persons who have had any experience with newspapers have known for a year past that the red hot editor could not sustain himself and that his break down was only a question of time

Oregon vs California

The superior attractions of our State are at last beginning to compel the recognition of California Under the caption given above the Sacramento *Union* of June — has an article which shows more fairness toward our State and a better idea of the advantages it offers to persons seeking homes than we have seen heretofore in any California journal After speaking of the fact that an agent of a German colony who had come out to California was unable to find lands to suit those whom he represented and that he therefore came on to Oregon and bought large tracts at the forks of the Wallamet the *Union* goes on to say

> There are other reasons for this preference over California besides the first cost of land, chief among which is the difference in taxes present and prospective. In this State extravagance in the county governments and interest on railway bonds given or loaned to those corporations, have made taxes enormously high In Oregon taxes are much lower and railway corporations do not yet quite rule the State Next to dear lands these high taxes are the greatest check upon desirable immigration and in fact upon success in any business They fall in the main upon money loaned, mechanics and small farmers The latter are first taxed three or four prices for land, and, where taxes range from three to five per cent, the moneyed capital necessary to improve the farm cannot be secured at less that one and a quarter to two per cent.

We are further informed that in California it is a common thing for the small farmers to be assessed at the rate of ten or twenty dollars an acre for their lands, while the adjoining acres belonging to the railroad monopoly pay only on nominal assessments Thus the "wealth producing industry" of the State is oppressed and a premium is offered for non-producing speculators The two States are thus still further contrasted.

> In Oregon the land owners, including all small farmers, have a common interest in the equal distribution of taxes, and in maintaining frugal county governments Here the reverse rule holds and there is a common interest among land monopolists and railway corporations to unite on schemes for the oppression of the great body of the taxpayers When California adopts the rule of compelling her overgrown land owners to sell out or pay equal taxes, and the rule of not pledging the property of all the people to build up fortunes in railways for a few private persons, we may hope to share with the other Western States in immigration, but not till then. If we do not reach these reforms we will be a rich and prosperous State when we are overwhelmed with debt and taxes, and frugal immigrants shunning us as they would a desert.

Other causes are contributing also to send people who come to California, into Oregon At this season of the year California is dried up with drought and persons who reach there from the fertile lands of the Mississippi valley are disappointed with the prospect of dried fields and loss of crops Many go back without further inquiry but those who come on to Oregon find the appearance of this State so vastly different that they are generally pleased with it and make preparation to remain We have here the only region of unfailing fertility on the Pacific Coast, and people who come here from California, especially at this season of the year, are peculiarly struck with the agreeableness of our climate and the freshness of our fields

There is a cry in California that "times" are uncommonly "hard" Money is said to be scarce, and business depressed Some of the papers go to the length of asserting that thousands of people there are without the common necessaries of life "Gaunt famine" is the standing topic with the lower class of newspapers, the principal object of whose existence is to ply the arts of the demagogue on the "Chinese question," for partisan ends Now it may be true that most of the people of California are in a bad way, and that none are so prosperous as they would like to be, yet it is a fact that all classes have money to invest in the grand Mercantile Library Lottery, and that there is a perfect furor still to buy tickets at five dollars apiece So far, it has been impossible to print the tickets fast enough The rage for the lottery extends among the poorest classes, and the greater part of the two hundred thousand five dollar tickets have been sold. This fact either disproves much that is said about the distressful condition of the working people of California, or it proves that they are the most reckless, improvident people in the world People who talk about "starving" because of the competition of Chinese Labor, but who run mad about a big lottery and buy all the chances in it they can get, are not the most worthy objects in the world to lavish sympathy upon.

The State.

We give below a table of the actual and estimated majorities for each party on Congressman as far as reported

REPUBLICAN		DEMOCRATIC	
Clatsop	69	Columbia	67
Multnomah	413	Linn	250
Washington	125	Lane	104
Yamhill	27	Jackson	250
Clackamas	67	Josephine	40
Benton	15	Umatilla	245
Marion	300	Baker	146
Tillamook (est.)	25	Union	175
Coos & Curry (est)	75	Polk	60
		Douglas	30
	1 126		1 367
Democratic majority			241

It is possible that the Democratic majority on Congressman may reach 300, and quite possible also that it may fall below 200 The Democratic majority on Governor will be somewhat larger These figures, when compared with the great Democratic majority two years ago show very encouraging Republican gains and it is as certain as anything can be that we shall win the next contest Democrats are now rejoicing over their last victory The immigration that is now coming will make the State securely Republican

The Next Congress

[From the New York Herald]

What is the prospect, looking toward the approaching elections for the next Congress? From the late elections in New Hampshire and Connecticut the two parties throughout the country remain substantially as they were in 1868 Under Andy Johnson the Republicans had to fight the combined forces of the administration and the democracy Now they have the administration with them and the head of it as the embodiment and foreordained candidate of the party for the President al succession They elected General Grant upon the policy of Congress against the policy of Johnson now they will go into the campaign for the next Congress upon the policy of Gen Grant and they will be supported by all the party machinery of his administration In short the Republicans in Grant and his administration have a common rallying point which gives them a vantage ground apparently quite as strong as that which the democratic party held under Gen Jackson

In his retrenchments revenue reforms and savings and reduction of the national debt, Gen Grant has already made for his administration a record which is much liked by the people On the fifteenth amendment and the general questions of equal civil and political rights regardless of race or color or of sex we may say too his course has been so bold, clear and emphatic that we may safely venture the opinion that he and the party which he represents will, at least for the present secure almost *en masse* the new African voting element of the North and most likely the mass of this political balance of power in the South The Southern conservative party movement in behalf of an affiliation with the blacks, which was so successful in Virginia last summer, appears to have been abandoned. In the little State of Delaware the leading Democrats have been making a merely foolish effort to get up a [illegible] against the "bleeding [illegible]" and throughout the South we find from our exchanges that the Democracy have turned their attention to denunciation of the fifteenth amendment when considering how they are to deal with the fixed fact they should be cultivating the vote of Sambo

The Republicans in Congress are anything but a unit on the tariff question and this may give them some trouble in the approaching elections. The new movement of the labor reformers on the other hand in the last New Hampshire election actually cut into the camp of the Democracy So far indeed as cohesion is considered the Republicans in General Grant have the advantages of an official leader a recognized candidate and a positive policy while the Democrats outside of New York are without a recognized leader or candidate or anything as a policy, except the policy hit or miss, of opposition to the party in power and General Grant's administration Such being the existing conditions and positions of the two parties the prospect is that the next Congress will be practically a continuation of the present Congress and that the Democrats in this year's State elections will make little if any headway in dividing a political revolution in 1872 In truth they can do nothing short of a new departure bold daring aggressive and comprehensive and for this they will not we conclude be prepared until they have had still another round of Democratic defeats

A BIG INJUN TAKES A SHOCK —Our Piute Indians are of an inquiring turn of mind and always flock around at any kind of street show where they will stand for hours stretching their necks over the shoulders of the white spectators, drinking in through open eyes and mouths the wonder before them Sunday afternoon last quite a number of white men and the usual sprinkling of Piutes were gathered about an electrical machine which was in full blast near the corner of C and Union streets Several whites had bought two bits worth of the artificial lightning when a big Injun" whose raiment consisted principally of a big turkey feather and a few daubs of red paint marched up in a drove by himself like Baxter's hog and became a customer to the peddler of the home-made lightning He seized upon the handles of the machine and the man at the wheel began to grind So deep was the silence which reigned in that crowd that you might have heard the blowing of a nose Presently the painted warrior began to exhibit signs of uneasiness. He evidently felt thrills and thing—twitches, for instance. His grim countenance became grimmer than the grimmest. There was a fearful working of his facial muscles, his eyes began to goggle, the paint on his cheek bones cracked and fell off in flakes. He tried to drop the handles of the machine, but they stuck fast to his [illegible]. "Hi you !" cried he, "no good ! Shab you nana ! You stop—so wagon—whoa-haw, G—d d—n !" Hereupon he began a wild sort of war dance, his fingers still [illegible] the keys of the machine, as though playing an accompanyment on the [illegible] "Hy-yu, G—d d—n ! Do 'im small [illegible] two bit !" The [illegible] the "noble red man" [illegible] through the crowd at a rapid rate. Upon gaining a safe distance, he turned and drawing himself up to his full height with great dignity, remarked as follows "Shoo fly !"—*Virginia City Enterprise*

Trumbull's amendment to the Apportionment bill gives 300 members to the House on a standard of 133,333 to each member, assuming a total population of 40 000 000 This would allow 105 members for the following nine Western States Ohio 22 Indiana 13 Illinois, 20 Wisconsin, 9 Michigan, 9, Iowa 9 Minnesota, 4, Kansas, 3 Missouri 12 California will obtain 4 members with a large fraction.

A HANDY THING TO HAVE IN THE HOUSE.—Mr W Webe has invented and has on exhibition and use in his saloon a queer but very handy ice-box and water tank In appearance it is about half way between a church dome and a gunboat turret The ice box is at the top the water tank at the bottom and between the two the radiating [illegible] which communicate with the top and bottom There are four closets in the body of the figure of the structure being octagonal in which butter or anything else can be placed to keep them frigid The turret revolves on castors. The doors are so arranged with secret spring locks that when one of them is turned to a certain point just to the hand of the person behind the bar they open of their own accord and when turned away they are instantly locked This is to keep all outside on the outside of the turret It is a very handy thing to have, as well as a very ingenious contrivance

Prostration Played Out

Violent purgatives emetics salivants blistering and bleeding have had their day

The sick can no longer be persuaded that the best way to cure them is to destroy the little strength that disease has left them

Dyspeptics instead of dosing themselves with epsom salts aloes colocynth jalap and other powerful cathar tics tone their digestive organs and regulate their bowels with Hostetter's Stomach Bitters

Persons of bilious habit, instead of throwing the whole glandular system into a state of morbid irritation with mercurial poison, seek relief and find it in the operation of that wholesome vegetable alterative upon the disor dered liver

Nervous sufferers tremulous weak and despondent recruit their shattered energies with a course of this great invigorant, and bless the day when the adulterated liquors of commerce were superseded by a medicated stimulant, perfectly efficient and entirely harmless

Travelers by land and sea rejoice in the possession of an agreeable corrective, which protects them from the evil effects of malaria from sea sickness and from the disturbing influences of changes of temperature and change of water.

The weak and debilitated feel their strength return and their spirits revive under its bracing, appetizing gently exhilarating action

It is the only stimulant which cautious physicians can conscientiously recommend to ladies in delicate health or to the aged and decrepid

There is not a city town or settlement on the Ameri can continent where it is not recognized as a household remedy and a safeguard against epidemics; and in short, wherever there is intelligence, prudence and common sense, Hostetter's Stomach Bitters is pronounced a standard specific for which in the whole range of pharmacy there is no substitute or equivalent

Prostration Played Out.

Violent purgatives emetics ... vants blistering and bleeding have had their day.

The sick can no longer be persuaded that the best way to cure them is to destroy the ... strength that disease has left them.

Dyspeptics instead of dosing themselves with epsom salts aloes, colycinth jalap and other powerful cathartics tone their digestive organs and regulate their bowels with Hostetter's Stomach Bitters.

Persons of bilious habit instead of throwing the whole glandular system into a state of morbid irritation with mercurial poison seek relief and find it in the operation of that wholesome vegetable alterative upon the disordered liver.

Nervous sufferers tremulous weak and despondent recruit their shattered energies with a course of this great invigorant and bless the day when the adulterated liquors of commerce were superseded by a medicated stimulant perfectly efficient and entirely harmless.

Travelers by land and sea rejoice in the possession of an agreeable corrective, which protects them from the evil effects of malaria from sea sickness and from the disturbing influences of changes of temperature, and change of water.

The weak and debilitated feel their strength return and their spirits revive under its bracing appetizing gently exhilarating action.

It is the only stimulant which cautious physicians can conscientiously recommend to ladies in delicate health or to the aged and decrepid.

There is not a city town or settlement on the American continent where it is not recognized as a household remedy and a safeguard against epidemics; and in short, wherever there is intelligence, prudence and common sense, Hostetter's Stomach Bitters is pronounced a standard specific for which in the whole range of pharmacy, there is no substitute or equivalent.

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit ... imitation of his mark, seek to deceive the public palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Postal Convention Between the United States of America and the Hawaiian Kingdom

The [illegible] being thereunto duly authorized by their respective Governments, have agreed upon the following articles for establishing and regulating the exchange of correspondence between the United States of America and the Hawaiian Kingdom

ARTICLE I

There shall be an exchange of correspondence between the United States of America and the Hawaiian Kingdom by means of the subsidized line of United States mail steamers plying between San Francisco and Honolulu as well as by means of other steamers or by sailing vessels running between the Hawaiian Islands and the ports of San Francisco California, Portland Oregon, or ports on Puget Sound, Teekalet, Olympia and Port Townsend, comprising letters, newspapers and printed matter of every kind originating in either country and addressed to [illegible] the other country

ARTICLE II

San Francisco, New York, Boston, Portland Oregon, Teekalet, Olympia and Port Townsend shall be the United States offices of exchange, and Honolulu and Hilo the Hawaiian offices of exchange for all mails transmitted between the two countries under this arrangements

ARTICLE III

The United States office shall defray the expenses of the sea conveyance of all mails transmitted in both directions by means of its subsidized line of mail steamships so long as said line is maintained by the Government of the United States, and the Hawaiian office shall defray the expenses of the sea conveyance of all mails transmitted, in both directions by means of occasional steamships or by sailing vessels.

ARTICLE IV

No accounts shall be kept between the post office departments of the two countries upon the correspondence exchanged between them, but each country shall retain to its own use the postages which it collects

The single rate of international letter postage shall be six cents on each letter weighing half an ounce or less, and an additional rate of six cents for each additional weight of half an ounce or fraction thereof which shall in all cases be fully prepaid by means of postage stamps at the office of mailing in either country. If not fully prepaid they shall not be forwarded. Letters received in either country from the other shall be delivered free of all charge whatsoever

The United States office shall levy and collect on newspapers, (whether transient or sent to regular subscribers,) addressed to or received from the Hawaiian Kingdom the established rates of United States domestic postage, and upon all articles of printed matter, except newspapers addressed to or received from the Hawaiian Kingdom a postage charge of four cents per each weight of four ounces or fraction of four ounces.

The Hawaiian post office shall levy and collect on newspapers and other articles of printed matter addressed to or received from the United States the regular rates of postage chargeable thereon by the laws of regulations of the Hawaiian Kingdom

ARTICLE V

Letters mailed in the Hawaiian Kingdom and addressed to countries beyond the United States, with which the United States have direct postal relations, may be forwarded through the United States to their respective destinations subject to the same additional postage charges as are paid by the inhabitants of the United States to such countries which in all cases where prepayment is obligatory in the United States may be paid by the senders in the Hawaiian Islands by affixing uncanceled United States postage stamps of sufficient value to effect such payment.

On the other hand prepaid letters from foreign countries, received in and forwarded from the United States to the Hawaiian Kingdom, shall be delivered in said kingdom free of all charges whatsoever and letters received in the Hawaiian Kingdom from the United States addressed to Micronesia or neighboring islands, will be forwarded to destination, subject to the same conditions as are applicable to correspondence originating in the Hawaiian Kingdom and addressed to those islands.

ARTICLE VI

Every letter dispatched from one country to the other shall be plainly stamped with the words "paid all" in red ink on the right-hand upper corner of the address in addition to the date stamp of the office at which it was posted

ARTICLE VII

Dead letters newspapers, &c which cannot be delivered, from whatever cause shall be mutually returned, without charge monthly, or as frequently as the regulations of the respective offices will permit

ARTICLE VIII

The two offices may by mutual consent make such detailed regulations as shall be found necessary to carry out the objects of this agreement, such regulations to terminate at any time on a reasonable notice by either office

ARTICLE IX

This convention shall come into operation on the 1st day of July 1870, and shall be terminable at any time on a notice by either office of six months

The Suez Canal

[From the Boston Advertiser

Unprejudiced accounts from the Suez Canal give reason for the apprehension that its success as a commercial enterprise is liable to be but partial. It has been successfully completed. Of that there is no doubt, but the peculiar danger which menaces the profits of operating it is the probability that it will have to be dug out every year. Steamers are very apt to ground in going through, and in such case every steamer cuts off a portion of the side slope and ploughs it into the middle where it has to be dredged out at an expense which makes a fearful inroad into the tolls. Nor is this the only source of uneasiness. The annual deposit of the sand from the winds is enormous and when drifting in from all sides the product of one day can only be removed at great cost

A letter from a correspondent of the Journal of Commerce who has visited the canal alludes to these drawbacks to its perfect success and regards its ultimate value as a [illegible] question. He thinks that the question [illegible] ly one of tolls. If these are [illegible] turn it, it will be kept open but [illegible] now available the prospect of [illegible] a profitable investment would seem [illegible]. He says —

"The canal cost $60 000 000 and [illegible] of the money was borrowed at ten per cent. M [illegible] Lesseps estimates the tonnage through the canal 6 000,000, which at $2 per ton will yield $1 000 000. Passengers are charged $7 per head. The canal has now been open about six months. We have returns for the first four months and these show a passage of 140 000 tons which would yield a revenue of $20 000 for a year, a mere fraction of the estimated receipts. When the expense of keeping this canal clear from sand is taken into consideration the Suez canal falls far short of being a commercial success

We think there is little doubt however that the canal is to be kept open and that it will continue to be of great advantage to the commerce of Europe and the East. The very fact of its great cost will preclude the possibility of the investment being abandoned, and the large number of steam vessels which have been built and are building especially for the route will exert a powerful influence in its favor. If the tolls are not sufficient to maintain it a increase will doubtless be agreed upon while at the worst the stockholders will prefer to submit to a very low rate of dividends rather than lose all by abandoning the enterprise

Postal Convention Between the United States of America and the Hawaiian Kingdom.

The undersigned, being thereunto duly authorized by their respective Governments, have agreed upon the following articles, establishing and regulating the exchange of correspondence between the United States of America and the Hawaiian Kingdom.

ARTICLE I.

There shall be an exchange of correspondence between the United States of America and the Hawaiian Kingdom, by means of the subsidized line of United States mail steamers plying between San Francisco and Honolulu, as well as by occasional steamers, and by sailing vessels running between Honolulu and the ports of San Francisco, California, Portland, Oregon, or ports in Puget Sound, Teekalet, Olympia, and Port Townsend, comprising letters, newspapers, and printed matter of every kind, originating in either country, and addressed to and deliverable in the other country.

ARTICLE II.

San Francisco, New York, Boston, Portland, Oregon, Teekalet, Olympia, and Port Townsend shall be the United States offices of exchange, and Honolulu and Hilo the Hawaiian offices of exchange, for all mails transmitted between the two countries under this arrangements.

ARTICLE III.

The United States office shall defray the expenses of the sea conveyance of all mails transmitted in both directions by means of its subsidized line of mail steamships so long as said line is maintained by the Government of the United States; and the Hawaiian office shall defray the expenses of the sea conveyance of all mails transmitted, in both directions, by means of occasional steamships or by sailing vessels.

ARTICLE IV.

No accounts shall be kept between the post office departments of the two countries upon the correspondence exchanged between them, but each country shall retain to its own use the postages which it collects.

The single rate of international letter postage shall be six cents on each letter weighing half an ounce or less, and an additional rate of six cents for each additional weight of half an ounce or fraction thereof, which shall in all cases be fully prepaid, by means of postage stamps, at the office of mailing in either country. If not fully prepaid, they shall not be forwarded. Letters received in either country from the other shall be delivered free of all charge whatsoever.

The United States office shall levy and collect on newspapers, (whether transient or sent to regular subscribers,) addressed to or received from the Hawaiian Kingdom, the established rates of United States domestic postage; and upon all articles of printed matter, except newspapers, addressed to or received from the Hawaiian Kingdom, a postage charge of four cents per each weight of four ounces or fraction of four ounces.

The Hawaiian post office shall levy and collect on newspapers and other articles of printed matter, addressed to or received from the United States, the regular rates of postage chargeable thereon by the laws of regulations of the Hawaiian Kingdom.

ARTICLE V.

Letters mailed in the Hawaiian Kingdom and addressed to countries beyond the United States, with which the United States, have direct postal relations, may be forwarded through the United States to their respective destinations, subject to the same additional postage charges as are paid by the inhabitants of the United States to such countries, which in all cases where prepayment is obligatory in the United States, may be paid by the senders in the Hawaiian islands by affixing uncancelled United States postage stamps of sufficient value to effect such payment.

On the other hand prepaid letters from foreign countries; received in and forwarded from the United States to the Hawaiian Kingdom, shall be delivered in said kingdom free of all charges whatsoever; and letters received in the Hawaiian Kingdom from the United States addressed to Micronesia or neighboring islands, will be forwarded to destination, subject to the same conditions as are applicable to correspondence originating in the Hawaiian Kingdom and addressed to those islands.

ARTICLE VI.

Every letter dispatched from one country to the other shall be plainly stamped with the words "paid all," in red ink, on the right-hand upper corner of the address, in addition to the date stamp of the office at which it was posted.

ARTICLE VII.

Dead letters, newspapers, &c. which cannot be delivered, from whatever cause, shall be mutually returned, without charge, monthly, or as frequently as the regulations of the respective offices will permit.

The Suez Canal.

[From the Boston Advertiser.]

Unprejudiced accounts from the Suez Canal give reason for the apprehension that its success as a commercial enterprise is liable to be but partial. It has been successfully completed. Of that there is no doubt, but the peculiar danger which menaces the profits of operating it, is the probability that it will have to be dug out every year. Steamers are very apt to ground in going through, and in such case every steamer cuts off a portion of the side slope and ploughs it into the middle where it has to be dredged out at an expense which makes a fearful inroad into the tolls. Nor is this the only source of uneasiness. The annual deposit of the sand from the winds is enormous, and, when drifting in from all sides the product of one day can only be removed at great cost.

A letter from a correspondent of the Journal of Commerce, who has visited the canal, alludes to these drawbacks to its perfect success and regards its ultimate value as a commercial question. He thinks that the question becomes wholly one of tolls. If these are sufficient to maintain it, it will be kept open, but from the figures now available the prospect of its being a profitable investment would seem rather remote. He says:—

"The canal cost $85,000,000, and more of the money was borrowed at ten per cent. Mr. Lesseps estimates the tonnage through the canal at 6,000,000, which at $2 per ton will yield $12,000,000. Passengers are charged $2 per head. The canal has now been open about six months. We have returns for the first four months, and these show a passage of 116,531 tons; which would yield a revenue of $900,000 for a year—a mere fraction of the estimated receipts. When the expense of keeping this canal clear from sand is taken into consideration, the Suez canal falls far short of being a commercial success."

We think there is little doubt, however, that the canal is to be kept open, and that it will continue to be of great advantage to the commerce of Europe and the East. The very fact of its great cost will preclude the possibility of the investment being abandoned, and the large number of steam vessels which have been built and are building especially for the route, will be a powerful influence in its favor. If the tolls are not sufficient to maintain it, an increase will doubtless be agreed upon, while at the worst the stockholders will prefer to submit to a very low rate of dividends rather than to lose all by abandoning the enterprise.

FINANCE AND COMMERCE.

[illegible] EVENING, Thursday, June 9, 1870.

Gold—Last quotation 112½, no dispatch for five days. Legal Tenders steady at 87½@88½.

Money is reasonably plenty for all legitimate business purposes. There is, however, but little demand for investment except in real estate. Rates of interest are unchanged—1 per cent at the banks on 30@60 day loans; outside rates 1½@2 per cent.

In the merchandise market, since the election excitement is beginning to pass away, business is taking up again, and the prospect now seems fair for a good week's trade. There are quite a number of [illegible] in the market from interior points [illegible] are making purchases which [illegible] and [illegible]. AGRICULTURAL GOODS. Business is to be [illegible] for two or three days [illegible] harvest, and we [illegible] the several machines shipped off wagons, going up the country. Very fair shipments have been made up both the Willamette and Columbia rivers. Prices are firm and stocks somewhat reduced. DRY GOODS—Trade in this line has greatly revived since the election, and jobbers are now doing a very satisfactory business. Quotations are same as heretofore. HARDWARE—Large stocks have lately been received by the *Ida F. Taylor*, from New York, and the *Live Yankee*, from San Francisco, but, as yet, sales have been quite light. Nails have advanced 25c per keg from former quotations, and rope 1c. GROCERIES—Business rather quiet than otherwise; no change in quotations.

PRODUCE—We have nothing encouraging to report. Receipts from the valley are only moderate, but quite sufficient to supply the demand. Green apples are almost entirely out of the market, but as there is an abundance of summer small fruits and berries, there is no especial demand; quotations nominal. The steamer *Ida F. Taylor* is filling up slowly and will probably have a full cargo of flour, provisions, produce and miscellaneous freight. Her sailing has been postponed till Saturday evening.

WASHINGTON,

And by the schedule of departures and arrivals herein specified, viz:

Instructions,

Containing conditions to be incorporated in the contract to the extent the Department may deem proper.

The Special Agents of the Postoffice Department, on exhibition of their credentials; also Postoffice blanks, mail bags, locks and keys, are to be conveyed without charge.

The route agents of the Department, should it appoint them, to be conveyed without charge, and for their exclusive use while traveling with the mails, a commodious apartment is to be provided by the contractor, under the direction of the department.

No pay will be made for trips not performed, and for each of such omissions, not satisfactorily explained, three times the pay of the trip may be deducted. For arrivals so far behind time as to break connection with depending mails, and not satisfactorily excused, one-fourth of the compensation for the trip is subject to forfeiture. Deduction will also be ordered for a grade of performance inferior to that specified in the contract. For repeated delinquencies of the kind, enlarged penalties, proportioned to the nature thereof and importance of the mail may be made.

Fines will be imposed, unless the delinquency be promptly and satisfactorily explained by certificates of postmasters or the affidavits of other credible persons, for failing to arrive in contract time, for neglecting to take the mail from or deliver it into a postoffice; for suffering it to be wet, injured, destroyed, robbed or lost; and for refusing, after demand, to convey the mail as frequently as the contractor runs, or is concerned in running, a conveyance on the route.

The Postmaster General may annul the contract for repeated failures to run agreeably to contract, for violating the postoffice laws, or disobeying the instructions of the department.

The Postmaster General may order an increase of the service by allowing therefor a pro rata increase in the contract pay. He may change the schedule of departures and arrivals, provided that by so doing the running time be not abridged.

Each bid must be guaranteed by two responsible persons, certified to be such by a postmaster or a judge of a court of record. The department reserves the right to reject any bid which may be deemed extravagant, and also to disregard the bids of failing contractors and bidders.

For forms of proposal, guarantee and certificate, and also for other instructions as to the conditions to be embraced in the contract, &c. see advertisement of September 30, 1869, inviting proposals for mail service in California and Oregon and Washington, to be found at the principal postoffices.

Bids should be sent in sealed envelopes, superscribed, "Mail Proposals, Route No. 15421, Washington Territory," and addressed to the Second Assistant Postmaster General.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn certificates, dupe the unwary. Some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes, [illegible], but you will find their former occupation in it. [illegible] the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he professes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian* y5d4ptf
